

At Pudsey Bolton Royd we aim to develop our children's creativity, imagination and understanding to design, produce and evaluate products that they consider their own having thought about others' needs, wants and values. Children will have the opportunity to build a repertoire of knowledge and skills in order to make high-quality products, using a range of tools, materials and ingredients, whilst discovering and investigating the impact of designers across the globe.

It is important for our children to: develop their physical skills; become problem solvers; and critically evaluate their own and others' products.
